

ISMAIL NATIONAL MAHILA PG COLLEGE

A Six Day Workshop
on

“ACTION RESEARCH: A PRACTICAL APPROACH TO SYSTEMIC CHANGE”

Organized by

B.Ed. Department

15th September to 20th September, 2025

Venue: Smart Class Room 2

About the Workshop

Action research explains and demonstrates the pursuit of inquiry in the real time situation. It can be used by an individual, teacher or a Principal, but it works best through cooperation and collaboration. This workshop on Action Research will give insights on various action research work undertaken by the students. The students will be extremely benefited through this activity. At this stage of their learning, research work will help them to be committed towards developing as a practitioner, thus becoming an agent and source of change in the field of education.

Objectives: The main objectives of the workshop are:

- ❖ To develop the ability to identify real classroom problems and find practical solutions to them.
- ❖ To equip students with skills of systematic observation, data collection, analysis and evaluation of the problem.
- ❖ To develop professional competence, research attitude and problem-solving ability among future teachers / students.

Topics to be covered in the workshop: -

1. Basic understanding of research
2. Introduction of Action Research
3. Problem Identification
4. Proposed objectives of the study
5. Delimitations & significance of the study
6. Problem Analysis
(Listing the probable causes of the problem; Collection of evidence; Analysis of the causes of the problem)
7. Formulation of Hypotheses.
8. Action programme
(Sources of Data; Selection of Tools; Data collection)
9. Evaluation of Action programme.
(Analysis of Data; Statistical treatment of Data; Graphical presentation)
